

**MONMOUTH COLLEGE DECLARATION OF INTENT TO APPLY  
FOR EXTERNAL FUNDING**

*This form must be completed (and signatures obtained) before the proposal is submitted. This is especially important in the case of NSF and other science grants, wherein in-kind contributions, equipment requests, institutional matching funds, and other aspects of the proposal may have major financial and facilities-related impact on the College. However, it is also important so that the College can record proposal activity whether funded or not. An active grants program is valuable to the College in recruiting students, recruiting and retaining faculty, publicizing research and creative work, and heightening national recognition of the quality of Monmouth's academic program.*

**Proposal Title**

**Deadline for Proposal**

**Grantor (Foundation or Agency) Name**

**Address**

**Contact Person at the Foundation or Agency**

**Phone**

**FAX**

**Project Purpose/Goal**

**Monmouth College Faculty Proposal Initiators**

**Department(s) and Contact Information**

**Student Investigators or Assistants (names and contact information, if known)**
